

# EVANGELOS TSAKOUDIS

## Cloud & DevSecOps Engineer

baggtsak55@gmail.com | +49 15206694051 | Berlin, Germany | [LinkedIn](#) | [Github](#)

AWS-certified Cloud & DevSecOps Engineer with hands-on experience designing & automating AWS infrastructure using Terraform, Terratest (Go), and GitHub Actions. Skilled in networking (WireGuard, iptables MASQUERADE, Caddy) and open-source tooling. Passionate about building scalable, practical solutions that solve real world problems.

## EXPERIENCE

**Software Engineer, Cloud & Security** | *webeet.io*

October 2024 - Present

- Supported fast and reliable software delivery by designing, automating, and maintaining a cost-efficient AWS cloud platform.
- Improved release speed and consistency by developing and operating CI/CD pipelines (GitHub Actions, GitLab CI, Jenkins) that automate build, test, and deployment workflows.
- Reduced operational and security risk by embedding security controls into delivery processes, including vulnerability scanning, secrets management, and access governance.
- Enabled scalable and resilient services by implementing Docker and Kubernetes (EKS) for rolling deployments and efficient resource usage.
- Increased infrastructure and pipeline reliability by applying standardized secure patterns such as network segmentation, least-privilege IAM, Terraform planning, linting, and automated security checks.

## SKILLS

- **Cloud & Infrastructure:** AWS (EC2, RDS, S3, VPC, ALB, IAM, CloudWatch, SNS, Lambda), Terraform, Docker, Kubernetes (EKS), Linux
- **Automation & Testing:** Terratest (Go), GitHub Actions, CI/CD, Infrastructure as Code (IaC)
- **Networking & Security:** WireGuard, Caddy, iptables (MASQUERADE), IAM, pipeline security
- **Monitoring & Observability:** Prometheus, Grafana, CloudWatch Metrics & Alerts
- **Programming Languages & Tools:** Python, Go, SQL, Bash, Git, Postman

## EDUCATION

**Software Engineering Program** | Masterschool Institution of Technology

July 2024 - June 2025

- Intensive, industry-driven training in software and cloud engineering, gaining hands-on experience in Cloud & DevOps using AWS, IaC(Terraform), Pipelines, and backend services using Python, Flask, REST APIs, and OOP principles.

## CERTIFICATES

- AWS Certified **Solutions Architect** Associate (2025).
- AWS Certified Cloud Practitioner (2025).

## LANGUAGES

Greek (Native), English (C1), German (C1)
